

NATIONAL CONFERENCE PARTNERSHIP OPPORTUNITY

THE ORGANIZATION

Universities Allied for Essential Medicines (UAEM) is a global movement of university students organizing on their campuses and beyond to ensure that publicly funded medicines and medical innovations, especially those that address neglected health needs, are affordable and accessible to the people who need them. We represent more than 380 members from 22 (and counting) universities across the United States and Canada, and an alumni network of more than 5,000 early-mid career professionals in medicine, health care, public health, law, and policy.

A NOTE FROM OUR HOSTS

We are excited to invite you to be part of the UAEM North America Conference, hosted in the spring of 2024 at Johns Hopkins University, an institution that is rooted in a rich history of research, innovation and commitment to global health. At the conference, we envision an environment of inspiration, innovation, empowerment, and lasting impact. This conference will connect leading public health experts, political leaders, and academics from all over the world, provide trainings, workshops, and discussions around access to medicines, transparency, and health policy from the university level to the international level. We hope to foster creativity and collaboration, empower attendees with the tools they need to create tangible change, and drive impactful projects, campaigns, and policies to make essential healthcare more accessible to all. By sponsoring this event at Johns Hopkins, you will play a crucial role in supporting our commitment to global health equity and helping us create a healthier, more equitable world.

Your support will enable us to achieve a gathering of dedicated individuals committed to making a difference in global health. Join us, as we work together to unlock the possibilities for a brighter, more equitable future. Thank you for considering sponsorship of the UAEM National Conference at Johns Hopkins University.

Sincerely,
Hanna & Isioma, Johns Hopkins University Leaders

THE CONFERENCE

The UAEM North America conference has been an annual event since 2008. Our conference has focused on the intersection of health equity, health policy, access to lifesaving medicines, and innovative research into the world's most neglected diseases.

Our conference is attended by undergraduate, public health, medicine, and law students from the U.S. and Canada. This year, we project that 150 attendees will be present. Additionally, we recruit expert faculty from major research universities, organizational leaders from the health care space, and speakers and advocates from around the world.

For the first time ever, we are offering sponsorship opportunities for the conference, which will expose your brand to our attendees as well as the multiple partner and allied organizations who pay attention to our conference around the world.
